starting at 1:00 pm on May 29th.**

Bid online or on site!

A black and white photograph of a cowboy on a horse in a mountainous landscape. The cowboy is wearing a hat and a plaid shirt, riding a dark horse. In the foreground, a black and white dog is standing in a field of tall grass. The background shows rolling hills and mountains under a cloudy sky.

Our Mission

Provide genetics and services that help cattle producers attain more freedom and profitability in their business and life.

Our Vision

Indreland Ranch is holistically and regeneratively managed and operated to produce healthy nutrition and environment for people, livestock and wildlife. This is accomplished by resilience to economic and environmental factors and by providing opportunities and profit to all involved. It is managed and operated by a team of motivated, goal oriented and open minded individuals that work together in a respectful manner.

About INDRELAND ANGUS

Our mission is to provide genetics and services that help cattle producers attain more freedom and profitability in their business and life.

Indreland Angus originated in 1977. That makes forty-nine years in the registered Angus business. Our production philosophy is that cows must consistently excel at converting our basic grass resource to beef. Practicing this philosophy has refined our cowherd into trouble free and productive cattle. We do not select for any extremes in performance but demand functionality in our cattle. We do practice line breeding and strive to produce as many ½ and ¾ blood calves as possible. All the bulls have been DNA tested to identify the sire. We have included individual cow weights for your information. Ultrasound scan carcass data on the sale bulls is also included at the back of the catalog. Foot scores, updated weights and Sensitivity Scores will be available on our website and at our open house/sale day.

Since these bulls were weaned in January 2025, they have been on hay and grass plus an energy supplement until greenup last spring. They were rotationally grazed last summer and fall– many were leased out during that time. Over the winter, they were grazed on stockpiled forage while receiving supplemental feed for energy and protein. These bulls are now full two year olds and ready to go to work! Many were lease bulls that were returned later and weren't ready for our December sale or later born bulls that simply were not ready as a result of our modest bull development program. They have never had their feet trimmed. Our objective with this bull development program is "What you see is what you get!" These bulls should maintain themselves and keep gaining at your place until they mature. You can be confident these bulls will get the job done and not need much maintenance.

	Wt.	Ht.	BCS
<i>Yearling heifers</i>	743	46.9	5.2
<i>2 year old cows</i>	835	48.0	5.0
<i>3 year old cows</i>	952	49.6	4.2
<i>4 years & older cows</i>	1030	48.8	4.4

Welcome to Indreland Angus' First Annual Spring Bull Sale!

Thank you once again to all our loyal customers and welcome to anyone interested in learning more about our program.

The land, the cattle, the people, the market – we are blessed in so many ways! In 2025, our area had ample moisture however, 2026 is starting to look like a much different year. That said, the land, the cattle and the people are doing well. We can see that leaving substantial cover on the soil is essential in building resiliency into our operation – **that's the resiliency to environmental factors** that is part of our Vision! We believe that this market provides a huge opportunity for cattle producers to make plans to get costs under control to achieve **resiliency to economic factors**. As always, we also believe the genetics put into a cowherd are the most basic building blocks. Seek out and buy cattle that will pass on some of those cost saving traits to their progeny, things like longevity, fertility, doability – pay attention to \$EN. These traits are bred into and doubled up in Indreland cattle.

We hope this finds everyone well and optimistic for the road ahead. Take things head on and **Dare to be Different!**

Best wishes to all,

Roger & Betsy Indreland

SALE INFORMATION

ON-LINE SALE FORMAT: Individual videos of the bulls are available for viewing on www.IndrelandRanch.com or www.frontierlivesale.com. We give people the option of viewing the bulls and bidding online as well as an open house the day before the sale. The open house will start on May 28th through sale time on Friday, May 29th. The sale will be an online sale, without a live auctioneer, but bids will be taken from the crowd. It is much like a regular sale, but much lower key. At 1 pm on May 29th, the lots will start closing in catalog order. Each lot will be given a minimum of 15 seconds and will continue until there is no competitive bidding.

Sale will be at Cafe 191's new venue: Homestead 191, the big building with lots of windows right behind the Cafe in Melville.

There will be several options to bid:

- You can come to the ranch on sale day, May 29th, look at the bulls/females in the morning, have lunch and bid on site – much like most auctions.
- You can be on your computer and bid as the lots close starting at 1 pm on May 29th. NOTE: if your internet connection is marginal, please call ahead of time of sale time so we can try to help or make arrangements for someone to be on the phone with you.
- You can call any of the representatives listed on page 3 and they will get the bids placed for you.
- You can come look at the bulls during the open house, May 28-29. You can then place a proxy bid online, indicating the maximum you would pay for the bull. No person, including us, will know what that number is. When that lot comes up, if there is competitive bidding, the computer will bid for you up to that amount. For example, you want to bid on 3 lots but can't attend or be at a computer, or your internet service is marginal. You can place a proxy bid ahead of time on those 3 lots. No one knows what your proxy bid is. If your proxy bid is \$8500 and the starting price is \$6500, with no online or onsite bids, you will buy the bull at \$6500. If there are online or onsite bids, the system will bid on your behalf up to (but not more than) your proxy bid. Just know that nothing beats a proxy bid – your bid WILL be first!

This is a secure and convenient method to buy your bulls. Proxy bidding is an easy way around a poor internet connection. Please consider coming to look at the bulls ahead of time, go home, register/log in and bid with confidence!

This sale is not a standard format, both proxy bidding before the sale date, and live bidding will be available, but there will be no auctioneer.

This sale will be broadcast live over the internet via Frontier Live Sale. The sale will begin with the ability to place proxy bids now through May 29th. On May 29th at 1:00 p.m., we will go through the lots in catalog order, on-site and online bidders will have the opportunity to place bids, when the bidding ceases, the lot will be sold to the high bidder. Proxy bids will directly compete with on-site, and online bidders. Duration will be a minimum of 15 seconds per lot.

To place bids, you must PRE-REGISTER, go to the Indreland Angus Ranch Sale page at www.frontierlivesale.com and click "Register/Login to Sale". You must have an account with Frontier Live sale, and you must then register for this auction. Registrations do not carry over from sale to sale.

For those who wish to simply view the sale without registering, login with your Facebook, or Google account. If you don't have a Facebook or Google account, a guest login will be provided.

Instructions for watching the sale can be found at www.frontierlivesale.com

We encourage you to register early to avoid any problems and make sure you are set up to view the sale. Visit www.frontierlivesale.com for all the details!

SPRING BULL SALE

INDRELAND ANGUS

SPRING BULL SALE

FRIDAY, MAY 29, 2026

BID ON-LINE OR IN PERSON

Sale 1:00 p.m.

at Homestead 191 in Melville, Montana

Visit our website!

www.INDRELANDRANCH.com

40+ TWO YEAR OLD BULLS SELL!

**OVER 50% HEIFER BULLS!
LOW INPUT + FORAGE RAISED**

BULL PREVIEW: May28-29 at the ranch.

ON-LINE SALE: May 29, 1:00 p.m. (MST) Lots start closing in catalog order.

LOCATION: Indreland Ranch - 12.25 miles north of Big Timber on Hwy 191 N, then east on Glasston Road for 1.7 miles. **NEW THIS YEAR!** The auction (and lunch) will take place at Homestead 191 (1996 Hwy 191 North, Melville, MT) - Just a few miles up the road from the ranch!

ANNOUNCEMENTS: Announcements made sale day take precedence over any printed materials.

LEASE BULL: Many of the bulls were leased for the 2025 breeding season. Upon return, they were quarantined for three weeks and successfully completed testing as outlined in our herd health info below.

HEIFER BULL: These bulls have met our criteria to be used on heifers: Birthweight less than 75 lbs. and BW EPD less than or equal to +1.0 and any other knowledge of the pedigree, etc. on the bull. **Over 50% of the bulls in the sale meet our criteria as a HEIFER BULL. ULTRA HEIFER BULLS: Birthweight less than 70 lbs. and BW EPD less than or equal to +0.0**

DELIVERY: Bulls will be delivered ASAP. Free delivery in Montana. Out of state deliveries at cost. Your cooperation in taking delivery is greatly appreciated.

GUARANTEE: Bulls are fully guaranteed. If for any reason you are unhappy, we request the opportunity to solve the problem. Replacement bulls of like quality will be provided at no charge in the case of a dead or injured bull that is unable to finish the first breeding season. Credit can also be given.

RETAINED INTEREST: We are retaining 1/3 revenue sharing interest on all sales of semen of each bull listed in this catalog unless otherwise noted. Possession and all other interests, including salvage value, belong to the owner.

HERD HEALTH INFO:

We take our herd health very seriously. Katie Rein, DVM, has guided us through our herd health protocol and developed our biosecurity measures.

The bulls for sale have been vaccinated as calves with Bovishield Gold One Shot and Ultrabac 7 Somubac. They received a booster at preconditioning last fall and then Pyramid 5 and Somubac last spring. They were vaccinated with Virashield 6 VL5 HB during their breeding soundness exam in April.

Indreland Angus Ranch continues to lease out bulls, including some of the bulls in this sale. These bulls were diligently quarantined upon return to the ranch. Additionally, all these bulls went through a rigorous testing protocol and tested negative for trichomoniasis, Johnes, brucellosis, anaplasmosis and bovine leukosis virus. Please contact our veterinarian, Katie Rein, DVM, at 406-350-0342 with any questions.

Stockmanship at Indreland Ranch

In addition to our year-round efforts to use good stockmanship with all our cattle, Anderson Livestock Services (Nathan & Jennie Anderson) of Melville, have worked horseback and on foot with our bulls again this year using their low stress stockmanship skills. Nathan assigns each bull a Sensitivity Score as he loads them in a stock trailer. The bulls learn that the trailer is a good place to be. We have noticed a big difference in how the bulls load when we deliver them– they just hop in the trailer! We are excited to work with Nathan and Jennie to offer bulls that have learned to load under a low stress environment. The Sensitivity Scores will be available on our website and at our open house/sale day. Nathan will be around sale day to answer questions or give him a call at 406-930-2163. For more information visit www.AndersonLivestockServices.com.

What is \$EN?

The American Angus Association's definition: "A cow energy value (\$EN) is available to assess differences in cow energy requirements, expressed in dollars per cow per year, as an expected dollar savings difference in future daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses.) Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated in differences in mature cow size."

Indreland Angus \$EN

According to the 2026 Spring Sire Evaluation Report, the average for \$EN in the Angus breed for non-parent bulls is -17. Our average \$EN for our registered sale bulls is +23. With the rising cost of feed, we think the \$EN number really should be evaluated and, in our opinion, is the first step to low input production. In this case, *the difference of \$40.00 is a cost savings on EVERY animal in your herd, PER YEAR. 97% of the sale bulls rank in the top 3% for \$EN for non-parent bulls.*

Special thanks to our dedicated team!

Lincoln and Erin Burggraff joined our team over 3 years ago and are a vital component of our operation! Lincoln manages the cow herd and forage and Erin helps with our social media among other things! We appreciate their efforts and commitment to Indreland Ranch!

Wendell Eichorn joined the team as an apprentice in February. He will be helping graze the cows and calves on the mountain summer pasture this year!

Charlie Smillie joined the team last year as an apprentice and spent most of the year on our higher elevation lease rotationally grazing stockers, yearling and cow/calf pairs! He is staying on for a second year apprenticeship and has been caring for these bulls as well as the yearling bulls. Thanks Charlie!

4666

"4666" has produced 447 calves for an ave BW of 72, WR of 98, YR of 100.

- As a yearling, he sired 10 calves against older bulls on yearling heifers.
- As a 2 year old, he sired 43 calves on cows in a competitive breeding group.
- As a 3 year old, he sired 25 calves on yearlings against older bulls.
- As a 4 year old, he sired 77 calves on cows in a competitive breeding group.
- As a 5 year old, he sired 75 calves on cows in a competitive breeding group.
- As a 6 year old, he sired 75 calves on cows in a competitive breeding group after producing 966 straws of semen prior to turnout.
- As a 7 year old, he sired 41 calves and probably more as we sold a number of cows that had been exposed to him.
- As an 8 year old, he sired 33 calves in a competitive breeding group.
- As a 9 year old, he sired 39 calves in a competitive breeding group.
- As a 10 year old, he sired 26 calves in a competitive breeding group.
- As an 11, he was turned out again in a competitive breeding group!
- As a 12 year old, he is still here on the ranch and will be turned out with a small bunch of cows.
- Total of 447 calves sired to date with an average birthweight of 72, weaning ratio of 98, yearling ratio of 100.
- Dam ave weight: 941, Granddam ave. weight: 1105

INDRELAND ANGUS BULL SCAN DATA Clay Nash, Technician

Beef Image Analysis (BIA) live animal carcass ultrasound is an automated chuteside software system that captures images and calculates trait measurements on an objective basis. The traits determined by BIA ultrasound software are: Ribeye Area (REA), Backfat Thickness (BF), Ribeye Area/Hundred lbs Live Weight (REA/CWT), Percent Intramuscular Fat (% IMF), Ribeye Shape Score (RES), Stress Score (SS), and Tenderness Score (TEND).

RES = Ribeye Shape Score. Indicative of desired shape of the ribeye muscle. Correlated to eventual Yield Grade, Cutability and % Retail Product. Score ranges from 0.0 to 1.0. Acceptable score is 0.35 or greater in yearling bulls, with an ideal score being 0.45 or better. Ideal score in heifers is 0.35 or better, with acceptable scores of 0.30 or better.

SS = Stress Score. Correlated to immune system strength of calf. Score ranges from 10-50. 10=No Stress, 20=Slight Stress, 30=Slightly Moderate Stress, 40=Moderate Stress, 50=Severe Stress. Impacts DTF, ADG, WDA, TCOG, Health Costs, QG, and YG. Ideal score is 20 or less.

TEND = Tenderness Score. Correlated to actual Warner-Bratzler Shear Force (WB) in carcass ribeye steak at 12th rib location. Correlation Coefficients between WB and TEND average 0.85 – 0.87. Score ranges from 10-50. 10=Very Tender, 20=Tender, 30=Slightly Tender, 40=Slightly Tough, 50=Tough. Acceptable score in yearling bulls is 28 or less. Ideal score is 25 or less.

% IMF = Percent Intramuscular Fat (Marbling). .28 - 2.57 % IMF = USDA QG Standard (Practically Devoid of Marbling), 2.58 - 3.89 % IMF = USDA QG Select (Slight Marbling), 3.90 - 5.33 % IMF = USDA QG Choice- (Small Marbling), 5.34 - 8.55 % IMF = USDA QG Choice+ (Modest/Moderate Marbling), 8.55+ % IMF = USDA QG Prime (Abundant Marbling).
